

So Much Trouble

Trouble in the water Trouble in the ground
Trouble in the air Means trouble all around
Trouble in the oceans Deep in the sea
Trouble in you Means Trouble in me
So much trouble

Trouble in the families Trouble in the home
Trouble so deep It's bred in the bone
Trouble in the countries Fighting for land
Trouble in our hearts It's war, waged by man
Oh! so much trouble I don't want trouble anymore

Trouble in the earth Trouble in the sky
Trouble in the breezes Blowing by
Trouble in the food That we eat
Trouble in our minds Won't let us sleep
Oh! so much trouble I don't want trouble anymore

Sometimes I wonder If we'll ever get out of here
Sometimes I wonder If we'll ever make it right
Sometimes I wonder If we'll ever find the way
And make our own way back to the light

Trouble in the East Trouble in the West
Trouble comes from thinking We're better than the rest
Trouble up ahead And far behind
Trouble in the clock That's running out of time

Oh! so much trouble I don't want trouble anymore
Oh! so much trouble
I don't want trouble anymore
